

Tight Supply Causes Contract Prices of Server DRAM Modules to Rise Over 25% Sequentially in First Quarter of 2017, Says TrendForce

2017-01-10 [TrendForce](#)

DRAMeXchange, a division of [TrendForce](#). The sequential contract price increases for some high-density server DRAM modules are even at nearly 30%. The average worldwide contract price of DDR4 R-DIMM 32GB modules has broken through the threshold of US\$200, while the 16GB counterparts have also climbed to about US\$100.

Server processors to become more powerful as their manufacturing technology advances to 10nm-class processes

About TrendForce

TrendForce is a global provider of the latest development, insight, and analysis of the technology industry. Having served businesses for over a decade, the company has built up a strong base membership base of 435,000 subscribers. TrendForce has established a reputation as an organization that offers insightful and accurate analysis of the technology industry through five major research divisions: DRAMXchange, WitsView, LEDinside, EnergyTrend and Topology. Founded in Taipei, Taiwan in 2000, TrendForce has extended its presence in China since 2004 with offices in Shenzhen and Beijing. For more details about TrendForce, please visit www.trendforce.com

Major research divisions:

DRAMeXchange focuses on memory, storage and the consumer electronics industry including PC DRAM, Mobile DRAM, Server DRAM, NAND Flash, SSD and smartphone.

WitsView offers comprehensive coverage of the display industry from upstream components, midstream panels/touch modules to downstream system integrators, brands and channels.

LEDinside covers all aspects of the LED supply chain from upstream equipment/materials, midstream chip/packaging to the downstream backlight and lighting market.

EnergyTrend specializes in green energy research, such as solar energy, lithium battery, energy storage systems and xEVs.

Topology studies structural trends of technology industries in the Greater China Region and beyond, focusing on semiconductors, photovoltaic technology, telecommunications, and IA.
