

Apple Pay Grows in Transaction Volume as Its Market Presence in Asia Widens, Says TrendForce

2017-03-08 [Kelly Hsieh](#)

TrendForce, stated that that iPhone devices currently has nearly a third of the smartphone market share in Taiwan, and this will help Apple Pay tremendously in penetrating into the local market. “Apple Pay can become a leading mobile payment platform that will gradually change the payment habit of Taiwanese consumers if it is able to win over consumers by providing strong data security and a very positive user experience,” said Hsieh.

Value-added services will encourage consumers to adopt mobile payment

Security remains central in the development efforts in the mobile payment market

About TrendForce

TrendForce is a global provider of the latest development, insight, and analysis of the technology industry. Having served businesses for over a decade, the company has built up a strong base membership base of 435,000 subscribers. TrendForce has established a reputation as an organization that offers insightful and accurate analysis of the technology industry through five major research divisions: DRAMXchange, WitsView, LEDinside, EnergyTrend and Topology. Founded in Taipei, Taiwan in 2000, TrendForce has extended its presence in China since 2004 with offices in Shenzhen and Beijing. For more details about TrendForce, please visit www.trendforce.com

Major research divisions:

DRAMeXchange focuses on memory, storage and the consumer electronics industry including PC DRAM, Mobile DRAM, Server DRAM, NAND Flash, SSD and smartphone.

WitsView offers comprehensive coverage of the display industry from upstream components, midstream panels/touch modules to downstream system integrators, brands and channels.

LEDinside covers all aspects of the LED supply chain from upstream equipment/materials, midstream chip/packaging to the downstream backlight and lighting market.

EnergyTrend specializes in green energy research, such as solar energy, lithium battery, energy storage systems and xEVs.

Topology studies structural trends of technology industries in the Greater China Region and beyond, focusing on semiconductors, photovoltaic technology, telecommunications, and IA.
