

## Foreign Competitors Set Up Fabs in China and Compel Country's Domestic Foundries to Expedite Their 28nm Production This Year, Says TrendForce

2017-04-10 [TrendForce](#)

TrendForce, Semiconductor Manufacturing International Corporation (SMIC) and Shanghai Huali Microelectronics Corporation (HMLC) are the two leaders among Chinese foundries in the development of the 28nm processing. The existence of foreign-owned fabs in China will pressure these two domestic manufacturers to further accelerate their timetables for this technology.

As the more advanced foreign-owned fabs in China begin production, domestic manufacturers will be under increasing pressure to catch up

### About TrendForce

TrendForce is a global provider of the latest development, insight, and analysis of the technology industry. Having served businesses for over a decade, the company has built up a strong base membership base of 435,000 subscribers. TrendForce has established a reputation as an organization that offers insightful and accurate analysis of the technology industry through five major research divisions: DRAMXchange, WitsView, LEDinside, EnergyTrend and Topology. Founded in Taipei, Taiwan in 2000, TrendForce has extended its presence in China since 2004 with offices in Shenzhen and Beijing. For more details about TrendForce, please visit [www.trendforce.com](http://www.trendforce.com)

#### Major research divisions:

**DRAMeXchange** focuses on memory, storage and the consumer electronics industry including PC DRAM, Mobile DRAM, Server DRAM, NAND Flash, SSD and smartphone.

**WitsView** offers comprehensive coverage of the display industry from upstream components, midstream panels/touch modules to downstream system integrators, brands and channels.

**LEDinside** covers all aspects of the LED supply chain from upstream equipment/materials, midstream chip/packaging to the downstream backlight and lighting market.

**EnergyTrend** specializes in green energy research, such as solar energy, lithium battery, energy storage systems and xEVs.

**Topology** studies structural trends of technology industries in the Greater China Region and beyond, focusing on semiconductors, photovoltaic technology, telecommunications, and IA.
