

TrendForce Says Upgrade-Driven Demand From Smartphone Brands to Make LPDDR4X the Mainstream Mobile Memory Solution in 2017

2017-05-08 [TrendForce](#)

DRAMeXchange, a division of [TrendForce](#), finds that smartphone makers continue to upgrade memory specifications of their devices as to get the optimal performances from the latest mobile operating systems. At the same time, more products within the mainstream application processor lines are supporting the latest-generation memory solutions. The developments, together with advances in DRAM manufacturing processes, have accelerated the pace of market adoption for LPDDR4 and its variant LPDDR4X.

About TrendForce

TrendForce is a global provider of the latest development, insight, and analysis of the technology industry. Having served businesses for over a decade, the company has built up a strong base membership base of 435,000 subscribers. TrendForce has established a reputation as an organization that offers insightful and accurate analysis of the technology industry through five major research divisions: DRAMeXchange, WitsView, LEDinside, EnergyTrend and Topology. Founded in Taipei, Taiwan in 2000, TrendForce has extended its presence in China since 2004 with offices in Shenzhen and Beijing. For more details about TrendForce, please visit www.trendforce.com

Major research divisions:

DRAMeXchange focuses on memory, storage and the consumer electronics industry including PC DRAM, Mobile DRAM, Server DRAM, NAND Flash, SSD and smartphone.

WitsView offers comprehensive coverage of the display industry from upstream components, midstream panels/touch modules to downstream system integrators, brands and channels.

LEDinside covers all aspects of the LED supply chain from upstream equipment/materials, midstream chip/packaging to the downstream backlight and lighting market.

EnergyTrend specializes in green energy research, such as solar energy, lithium battery, energy storage systems and xEVs.

Topology studies structural trends of technology industries in the Greater China Region and beyond, focusing on semiconductors, photovoltaic technology, telecommunications, and IA.
