

TrendForce Expects Quotes for TV Panels to Remain Fairly Stable During Second Quarter but Price Negotiations in Medium-Size Range Will Become Noisier

2017-05-09 [TrendForce](#)

WitsView, a division of [TrendForce](#), indicates that TV panel quotes on the whole will stay relatively stable in the second quarter, with the exception being noisy price negotiations in the medium-size range or sizes 40 to 43 inches. As for prices for panels used in other applications, quotes for monitor panels are on a gradual monthly slide due to the off-season effect. Meanwhile, quotes for notebook panels are also relatively stable this second quarter due to returning demand resulting from earlier purchase adjustments made by notebook brands.

About TrendForce

TrendForce is a global provider of the latest development, insight, and analysis of the technology industry. Having served businesses for over a decade, the company has built up a strong base membership base of 435,000 subscribers. TrendForce has established a reputation as an organization that offers insightful and accurate analysis of the technology industry through five major research divisions: DRAMXchange, WitsView, LEDinside, EnergyTrend and Topology. Founded in Taipei, Taiwan in 2000, TrendForce has extended its presence in China since 2004 with offices in Shenzhen and Beijing. For more details about TrendForce, please visit www.trendforce.com

Major research divisions:

DRAMeXchange focuses on memory, storage and the consumer electronics industry including PC DRAM, Mobile DRAM, Server DRAM, NAND Flash, SSD and smartphone.

WitsView offers comprehensive coverage of the display industry from upstream components, midstream panels/touch modules to downstream system integrators, brands and channels.

LEDinside covers all aspects of the LED supply chain from upstream equipment/materials, midstream chip/packaging to the downstream backlight and lighting market.

EnergyTrend specializes in green energy research, such as solar energy, lithium battery, energy storage systems and xEVs.

Topology studies structural trends of technology industries in the Greater China Region and beyond, focusing on semiconductors, photovoltaic technology, telecommunications, and IA.
