

AI Applications to Propel Revenue from Semiconductor Chip Sales Worldwide at a CAGR of 3.1% in 2018~2022 Period, Says TrendForce

2017-09-07 [Jian-Hong Lin](#)

TrendForce, AI will create new market opportunities as well as upgrading the fabrication process for semiconductor manufacturers. With AI becoming a major growth contributor, TrendForce forecasts that the global revenue from semiconductor chip sales will grow at a CAGR of 3.1% from 2018 to 2022.

IT Industry Forecast for 2018 on the 29th of this September in Room 201 of National Taiwan University Hospital (NTUH) International Convention Center, located at No. 2, Xuzhou Road, Zhongzheng District 101, Taipei City.

About TrendForce

TrendForce is a global provider of the latest development, insight, and analysis of the technology industry. Having served businesses for over a decade, the company has built up a strong base membership base of 435,000 subscribers. TrendForce has established a reputation as an organization that offers insightful and accurate analysis of the technology industry through five major research divisions: DRAMXchange, WitsView, LEDinside, EnergyTrend and Topology. Founded in Taipei, Taiwan in 2000, TrendForce has extended its presence in China since 2004 with offices in Shenzhen and Beijing. For more details about TrendForce, please visit www.trendforce.com

Major research divisions:

DRAMeXchange focuses on memory, storage and the consumer electronics industry including PC DRAM, Mobile DRAM, Server DRAM, NAND Flash, SSD and smartphone.

WitsView offers comprehensive coverage of the display industry from upstream components, midstream panels/touch modules to downstream system integrators, brands and channels.

LEDinside covers all aspects of the LED supply chain from upstream equipment/materials, midstream chip/packaging to the downstream backlight and lighting market.

EnergyTrend specializes in green energy research, such as solar energy, lithium battery, energy storage systems and xEVs.

Topology studies structural trends of technology industries in the Greater China Region and beyond, focusing on semiconductors, photovoltaic technology, telecommunications, and IA.
