

Toshiba Memory Corporation to Focus on Catching Up to Samsung in 3D-NAND Production Capacity Following Its Sale to U.S.-Japanese Consortium

2017-09-21 [Alan Chen](#)

DRAMeXchange, a division of [TrendForce](#), the deal will start to have a notable impact on the NAND Flash market in the first half of 2018 as the negotiations took longer than expected. From a medium- to long-term perspective, this deal will inject the necessary capital into TMC so that it can work to become a rival to Samsung in terms of NAND Flash technology and production capacity.

Samsung is still way ahead of the Toshiba-Western Digital alliance in 3D-NAND Flash capacity

The deal may lead to NAND Flash oversupply in the first half of 2018

The spun-off entity will manage its capital expenditure without interference from the former parent company and attain higher operational efficiency

About TrendForce

TrendForce is a global provider of the latest development, insight, and analysis of the technology industry. Having served businesses for over a decade, the company has built up a strong base membership base of 435,000 subscribers. TrendForce has established a reputation as an organization that offers insightful and accurate analysis of the technology industry through five major research divisions: DRAMXchange, WitsView, LEDinside, EnergyTrend and Topology. Founded in Taipei, Taiwan in 2000, TrendForce has extended its presence in China since 2004 with offices in Shenzhen and Beijing. For more details about TrendForce, please visit www.trendforce.com

Major research divisions:

DRAMeXchange focuses on memory, storage and the consumer electronics industry including PC DRAM, Mobile DRAM, Server DRAM, NAND Flash, SSD and smartphone.

WitsView offers comprehensive coverage of the display industry from upstream components, midstream panels/touch modules to downstream system integrators, brands and channels.

LEDinside covers all aspects of the LED supply chain from upstream equipment/materials, midstream chip/packaging to the downstream backlight and lighting market.

EnergyTrend specializes in green energy research, such as solar energy, lithium battery, energy storage systems and xEVs.

Topology studies structural trends of technology industries in the Greater China Region and beyond, focusing on semiconductors, photovoltaic technology, telecommunications, and IA.
