

TrendForce Says NAND Flash Market to Regain Balance in 2018 with Annual Bit Supply Growing by 42.9%

2017-09-27 [Alan Chen](#)

DRAMeXchange, division of [TrendForce](#). During this 2017, NAND Flash demand continues to expand because of the increase in average memory content of smartphones and the strong server market. At the same time, the growth in NAND Flash supply has been constrained by the pace of the major suppliers' respective technology migrations, which in general have been slower than anticipated.

3D-NAND to represent over 70% of the global NAND Flash bit output for 2018; Samsung to retain its technology leadership

About TrendForce

TrendForce is a global provider of the latest development, insight, and analysis of the technology industry. Having served businesses for over a decade, the company has built up a strong base membership base of 435,000 subscribers. TrendForce has established a reputation as an organization that offers insightful and accurate analysis of the technology industry through five major research divisions: DRAMXchange, WitsView, LEDinside, EnergyTrend and Topology. Founded in Taipei, Taiwan in 2000, TrendForce has extended its presence in China since 2004 with offices in Shenzhen and Beijing. For more details about TrendForce, please visit www.trendforce.com

Major research divisions:

DRAMeXchange focuses on memory, storage and the consumer electronics industry including PC DRAM, Mobile DRAM, Server DRAM, NAND Flash, SSD and smartphone.

WitsView offers comprehensive coverage of the display industry from upstream components, midstream panels/touch modules to downstream system integrators, brands and channels.

LEDinside covers all aspects of the LED supply chain from upstream equipment/materials, midstream chip/packaging to the downstream backlight and lighting market.

EnergyTrend specializes in green energy research, such as solar energy, lithium battery, energy storage systems and xEVs.

Topology studies structural trends of technology industries in the Greater China Region and beyond, focusing on semiconductors, photovoltaic technology, telecommunications, and IA.
