

## Total Revenue of China's IC Industry to Grow Above Global Average at Annual Rate of 19.86% for 2018, Says TrendForce

2017-11-09 [Jeter Teo](#)

Breakdown Analysis of China's Semiconductor Industry, [TrendForce](#) estimates that the total annual revenue generated by the country's domestic IC industry for 2017 will come to RMB 517.6 billion, representing an increase of 19.39% from 2016. TrendForce further forecasts that total revenue of China's IC industry for 2018 will come to a new record high of around RMB 620 billion, with the annual growth again reaching around the 20% level. By contrast, the average revenue growth rate of the worldwide IC industry for 2018 is projected at 3.4%.

### About TrendForce

TrendForce is a global provider of the latest development, insight, and analysis of the technology industry. Having served businesses for over a decade, the company has built up a strong base membership base of 435,000 subscribers. TrendForce has established a reputation as an organization that offers insightful and accurate analysis of the technology industry through five major research divisions: DRAMXchange, WitsView, LEDinside, EnergyTrend and Topology. Founded in Taipei, Taiwan in 2000, TrendForce has extended its presence in China since 2004 with offices in Shenzhen and Beijing. For more details about TrendForce, please visit [www.trendforce.com](http://www.trendforce.com)

#### Major research divisions:

**DRAMeXchange** focuses on memory, storage and the consumer electronics industry including PC DRAM, Mobile DRAM, Server DRAM, NAND Flash, SSD and smartphone.

**WitsView** offers comprehensive coverage of the display industry from upstream components, midstream panels/touch modules to downstream system integrators, brands and channels.

**LEDinside** covers all aspects of the LED supply chain from upstream equipment/materials, midstream chip/packaging to the downstream backlight and lighting market.

**EnergyTrend** specializes in green energy research, such as solar energy, lithium battery, energy storage systems and xEVs.

**Topology** studies structural trends of technology industries in the Greater China Region and beyond, focusing on semiconductors, photovoltaic technology, telecommunications, and IA.
