

Average Contract Price of PC DRAM 4GB Modules Rose to US\$18 in November, Says TrendForce

2016-12-07 [Avril Wu](#)

DRAMeXchange, a division of [TrendForce](#). The average contract price of PC DRAM 4GB modules increased by 2.86% monthly to arrive at US\$18 in November, while the average spot prices of DDR3 and DDR4 4Gb chips respectively rose 6% and 2% monthly to reach US\$2.6 and US\$2.53. The general state of the PC DRAM market in November suggests that the upward price trend will continue in the future.

Mainstream products for next year's PC DRAM market will be 8Gb chips from 20nm processes, while increasing content per box will spur bit demand growth

About TrendForce

TrendForce is a global provider of the latest development, insight, and analysis of the technology industry. Having served businesses for over a decade, the company has built up a strong base membership base of 435,000 subscribers. TrendForce has established a reputation as an organization that offers insightful and accurate analysis of the technology industry through five major research divisions: DRAMXchange, WitsView, LEDinside, EnergyTrend and Topology. Founded in Taipei, Taiwan in 2000, TrendForce has extended its presence in China since 2004 with offices in Shenzhen and Beijing. For more details about TrendForce, please visit www.trendforce.com

Major research divisions:

DRAMeXchange focuses on memory, storage and the consumer electronics industry including PC DRAM, Mobile DRAM, Server DRAM, NAND Flash, SSD and smartphone.

WitsView offers comprehensive coverage of the display industry from upstream components, midstream panels/touch modules to downstream system integrators, brands and channels.

LEDinside covers all aspects of the LED supply chain from upstream equipment/materials, midstream chip/packaging to the downstream backlight and lighting market.

EnergyTrend specializes in green energy research, such as solar energy, lithium battery, energy storage systems and xEVs.

Topology studies structural trends of technology industries in the Greater China Region and beyond, focusing on semiconductors, photovoltaic technology, telecommunications, and IA.
