

TrendForce Says Global Market Value for Voice Recognition Will Register CAGR of 43.64% During 2016~2021 as Applications for AI Expands

2017-01-19 [Christy Lin](#)

TrendForce, the global market value of voice recognition solutions is projected to grow from US\$2.61 billion in 2016 to US\$15.98 billion in 2021, with the CAGR in the forecast period at 43.64%. The main source of growth momentum will come from the widespread adoption of voice-based virtual assistants in various devices.

Virtual assistant developers look to different smart products as they strive to establish the dominant voice control platform in the IoT market

NVIDIA shines in automotive electronics as the race to develop self-driving cars creates demands for advanced image recognition solutions

About TrendForce

TrendForce is a global provider of the latest development, insight, and analysis of the technology industry. Having served businesses for over a decade, the company has built up a strong base membership base of 435,000 subscribers. TrendForce has established a reputation as an organization that offers insightful and accurate analysis of the technology industry through five major research divisions: DRAMXchange, WitsView, LEDinside, EnergyTrend and Topology. Founded in Taipei, Taiwan in 2000, TrendForce has extended its presence in China since 2004 with offices in Shenzhen and Beijing. For more details about TrendForce, please visit www.trendforce.com

Major research divisions:

DRAMeXchange focuses on memory, storage and the consumer electronics industry including PC DRAM, Mobile DRAM, Server DRAM, NAND Flash, SSD and smartphone.

WitsView offers comprehensive coverage of the display industry from upstream components, midstream panels/touch modules to downstream system integrators, brands and channels.

LEDinside covers all aspects of the LED supply chain from upstream equipment/materials, midstream chip/packaging to the downstream backlight and lighting market.

EnergyTrend specializes in green energy research, such as solar energy, lithium battery, energy storage systems and xEVs.

Topology studies structural trends of technology industries in the Greater China Region and beyond, focusing on semiconductors, photovoltaic technology, telecommunications, and IA.
