

TrendForce Says New iPhone Production Volume to Exceed 100M Units This Year; AMOLED Model to Feature 3D Facial Recognition

2017-02-21 [TrendForce](#)

TrendForce's recent findings on the 10th anniversary iPhone release reveal that Apple's latest refresh of the device series will include three new models, with one of them having significant hardware and design upgrades such as an AMOLED display.

Next high-end iPhone will be the first in the series to feature AMOLED display in addition to other major design changes

3D Sensing to expand iPhone's applications in biometric recognition and AR

The high-end AMOLED model will be the main iPhone sales driver for this year

About TrendForce

TrendForce is a global provider of the latest development, insight, and analysis of the technology industry. Having served businesses for over a decade, the company has built up a strong base membership base of 435,000 subscribers. TrendForce has established a reputation as an organization that offers insightful and accurate analysis of the technology industry through five major research divisions: DRAMXchange, WitsView, LEDinside, EnergyTrend and Topology. Founded in Taipei, Taiwan in 2000, TrendForce has extended its presence in China since 2004 with offices in Shenzhen and Beijing. For more details about TrendForce, please visit www.trendforce.com

Major research divisions:

DRAMeXchange focuses on memory, storage and the consumer electronics industry including PC DRAM, Mobile DRAM, Server DRAM, NAND Flash, SSD and smartphone.

WitsView offers comprehensive coverage of the display industry from upstream components, midstream panels/touch modules to downstream system integrators, brands and channels.

LEDinside covers all aspects of the LED supply chain from upstream equipment/materials, midstream chip/packaging to the downstream backlight and lighting market.

EnergyTrend specializes in green energy research, such as solar energy, lithium battery, energy storage systems and xEVs.

Topology studies structural trends of technology industries in the Greater China Region and beyond, focusing on semiconductors, photovoltaic technology, telecommunications, and IA.
