

Prices of LED Light Bulbs Fell in February as a Wave of Economically Priced LED Filament Bulbs Arrived in Europe and the U.S., Says TrendForce

2017-03-08 [Allen Yu](#)

LEDinside, a division of [TrendForce](#), reports that the global average sales price (ASP) of 40-watt equivalent LED replacement light bulbs came to US\$6.8 this February, down 0.6% from the prior month. As for 60-watt equivalent counterparts, their global ASP in the same month stood at US\$8.2, dropping 2.1% from January.

Rising costs of raw materials have pushed up prices in China's LED package market

European vendors focus on developing new LED filament light bulbs that are high in luminous efficacy and economically priced

About TrendForce

TrendForce is a global provider of the latest development, insight, and analysis of the technology industry. Having served businesses for over a decade, the company has built up a strong base membership base of 435,000 subscribers. TrendForce has established a reputation as an organization that offers insightful and accurate analysis of the technology industry through five major research divisions: DRAMXchange, WitsView, LEDinside, EnergyTrend and Topology. Founded in Taipei, Taiwan in 2000, TrendForce has extended its presence in China since 2004 with offices in Shenzhen and Beijing. For more details about TrendForce, please visit www.trendforce.com

Major research divisions:

DRAMeXchange focuses on memory, storage and the consumer electronics industry including PC DRAM, Mobile DRAM, Server DRAM, NAND Flash, SSD and smartphone.

WitsView offers comprehensive coverage of the display industry from upstream components, midstream panels/touch modules to downstream system integrators, brands and channels.

LEDinside covers all aspects of the LED supply chain from upstream equipment/materials, midstream chip/packaging to the downstream backlight and lighting market.

EnergyTrend specializes in green energy research, such as solar energy, lithium battery, energy storage systems and xEVs.

Topology studies structural trends of technology industries in the Greater China Region and beyond, focusing on semiconductors, photovoltaic technology, telecommunications, and IA.
