

TrendForce Says PC DRAM Contract Price Rose by Over 10% Sequentially and Global DRAM Revenue Increase by 16.9% Sequentially in Second Quarter

2017-08-17 [Avril Wu](#)

DRAMeXchange, a division of [TrendForce](#). Compared with the first quarter, the undersupply situation was not as severe, and OEM clients in the downstream were able to gradually extend their inventories. Nevertheless, the global ASPs of PC and server DRAM products rose by more than 10% sequentially in the second quarter, while the global ASP of mobile DRAM products showed a less than 5% gain. The smaller price increase for mobile DRAM was due to Chinese smartphone brands lowering than annual shipment targets.

Samsung's DRAM revenue hit a new high in the second quarter while SK Hynix also posted a sequential increase of more than 10%

About TrendForce

TrendForce is a global provider of the latest development, insight, and analysis of the technology industry. Having served businesses for over a decade, the company has built up a strong base membership base of 435,000 subscribers. TrendForce has established a reputation as an organization that offers insightful and accurate analysis of the technology industry through five major research divisions: DRAMXchange, WitsView, LEDinside, EnergyTrend and Topology. Founded in Taipei, Taiwan in 2000, TrendForce has extended its presence in China since 2004 with offices in Shenzhen and Beijing. For more details about TrendForce, please visit www.trendforce.com

Major research divisions:

DRAMeXchange focuses on memory, storage and the consumer electronics industry including PC DRAM, Mobile DRAM, Server DRAM, NAND Flash, SSD and smartphone.

WitsView offers comprehensive coverage of the display industry from upstream components, midstream panels/touch modules to downstream system integrators, brands and channels.

LEDinside covers all aspects of the LED supply chain from upstream equipment/materials, midstream chip/packaging to the downstream backlight and lighting market.

EnergyTrend specializes in green energy research, such as solar energy, lithium battery, energy storage systems and xEVs.

Topology studies structural trends of technology industries in the Greater China Region and beyond, focusing on semiconductors, photovoltaic technology, telecommunications, and IA.
