

DRAM Products May Experience Steeper Price Decline of 5% QoQ in 4Q18 Due to Oversupply and Weak Demand, Says TrendForce

2018-09-26 [Avril Wu](#)

DRAMeXchange, a division of [TrendForce](#), reports that DRAM suppliers have been negotiating with their clients over the 4Q18 contracts towards the end of September. Looking ahead to the next quarter, DRAMeXchange expects that the quotations of DRAM products to decline by 5% QoQ, higher than the previous forecast of 1~3%. The weak quotations are mainly due to increasing bit supply yet fairly limited growth in demand, despite the coming of holiday sales season.

Server DRAM products may see steeper price drop in the slowing DRAM market

About TrendForce

TrendForce is a global provider of the latest development, insight, and analysis of the technology industry. Having served businesses for over a decade, the company has built up a strong base membership base of 435,000 subscribers. TrendForce has established a reputation as an organization that offers insightful and accurate analysis of the technology industry through five major research divisions: DRAMXchange, WitsView, LEDinside, EnergyTrend and Topology. Founded in Taipei, Taiwan in 2000, TrendForce has extended its presence in China since 2004 with offices in Shenzhen and Beijing. For more details about TrendForce, please visit www.trendforce.com

Major research divisions:

DRAMeXchange focuses on memory, storage and the consumer electronics industry including PC DRAM, Mobile DRAM, Server DRAM, NAND Flash, SSD and smartphone.

WitsView offers comprehensive coverage of the display industry from upstream components, midstream panels/touch modules to downstream system integrators, brands and channels.

LEDinside covers all aspects of the LED supply chain from upstream equipment/materials, midstream chip/packaging to the downstream backlight and lighting market.

EnergyTrend specializes in green energy research, such as solar energy, lithium battery, energy storage systems and xEVs.

Topology studies structural trends of technology industries in the Greater China Region and beyond, focusing on semiconductors, photovoltaic technology, telecommunications, and IA.
