

Revenue Growth in China's Semiconductor Industry Would Slow Down to 16.2% in 2019 due to Pessimistic

2019-01-23 [Jeter Teo](#)

TrendForce - [Breakdown Analysis of China's Semiconductor Industry](#), the outlook for China's semiconductor industry has been tampered since the second half of 2018 due to pessimistic economy worldwide and uncertainties brought by the China-U.S. trade war, although the industry managed to reach a total revenue of over 600 billion RMB in 2018. Looking ahead to 2019, the revenue of China's semiconductor industry is expected to reach RMB 729.8 billion, but the annual growth rate would slow down to 16.20%, the lowest in the past five years.

About TrendForce

TrendForce is a global provider of the latest development, insight, and analysis of the technology industry. Having served businesses for over a decade, the company has built up a strong base membership base of 435,000 subscribers. TrendForce has established a reputation as an organization that offers insightful and accurate analysis of the technology industry through five major research divisions: DRAMXchange, WitsView, LEDinside, EnergyTrend and Topology. Founded in Taipei, Taiwan in 2000, TrendForce has extended its presence in China since 2004 with offices in Shenzhen and Beijing. For more details about TrendForce, please visit www.trendforce.com

Major research divisions:

DRAMeXchange focuses on memory, storage and the consumer electronics industry including PC DRAM, Mobile DRAM, Server DRAM, NAND Flash, SSD and smartphone.

WitsView offers comprehensive coverage of the display industry from upstream components, midstream panels/touch modules to downstream system integrators, brands and channels.

LEDinside covers all aspects of the LED supply chain from upstream equipment/materials, midstream chip/packaging to the downstream backlight and lighting market.

EnergyTrend specializes in green energy research, such as solar energy, lithium battery, energy storage systems and xEVs.

Topology studies structural trends of technology industries in the Greater China Region and beyond, focusing on semiconductors, photovoltaic technology, telecommunications, and IA.
