

## TrendForce Says Rising Demand Will Help the LTPS Market Reach a Healthy Equilibrium in 2019

2019-02-14 [Boyce Fan](#)

WitsView, a division of [TrendForce](#), finds that low prices and technological maturation have substantially widened the adoption of LTPS panels among smartphone makers. The share of devices featuring LTPS panels in the global smartphone market is projected to grow from 37.6% in 2018 to 41.6% in 2019. However, panel suppliers have ended large-scale expansions of their production capacity for LTPS panels since they are gradually shifting their technological focus for smartphone displays to AMOLED. On the whole, 2019 is expected to be a year during which the market for LTPS panels will be at its healthiest state in terms of supply and demand.

### About TrendForce

TrendForce is a global provider of the latest development, insight, and analysis of the technology industry. Having served businesses for over a decade, the company has built up a strong base membership base of 435,000 subscribers. TrendForce has established a reputation as an organization that offers insightful and accurate analysis of the technology industry through five major research divisions: DRAMXchange, WitsView, LEDinside, EnergyTrend and Topology. Founded in Taipei, Taiwan in 2000, TrendForce has extended its presence in China since 2004 with offices in Shenzhen and Beijing. For more details about TrendForce, please visit [www.trendforce.com](http://www.trendforce.com)

#### Major research divisions:

**DRAMeXchange** focuses on memory, storage and the consumer electronics industry including PC DRAM, Mobile DRAM, Server DRAM, NAND Flash, SSD and smartphone.

**WitsView** offers comprehensive coverage of the display industry from upstream components, midstream panels/touch modules to downstream system integrators, brands and channels.

**LEDinside** covers all aspects of the LED supply chain from upstream equipment/materials, midstream chip/packaging to the downstream backlight and lighting market.

**EnergyTrend** specializes in green energy research, such as solar energy, lithium battery, energy storage systems and xEVs.

**Topology** studies structural trends of technology industries in the Greater China Region and beyond, focusing on semiconductors, photovoltaic technology, telecommunications, and IA.
