

Suffering from Increasing Loss of Money, TV Panel Makers Began to Massively Reduce Capacities in Sep., Says TrendForce

2019-10-07 [Anita Wang](#)

WitsView, a division of [TrendForce](#), its latest survey showed that TV panel prices generally have been lower than the cash costs. Thus, panel makers' loss of money has continually expanded. Korean, Taiwanese and Chinese panel makers all started to lower their utilization rates (UT) of TV panel products from September on, in order to improve the severely unbalanced supply and demand and stabilize the prices.

China's large-sized panel input by area surpassed that of Korea, and China's share might reach nearly 50% in 2020

About TrendForce

TrendForce is a global provider of the latest development, insight, and analysis of the technology industry. Having served businesses for over a decade, the company has built up a strong base membership base of 435,000 subscribers. TrendForce has established a reputation as an organization that offers insightful and accurate analysis of the technology industry through five major research divisions: DRAMXchange, WitsView, LEDinside, EnergyTrend and Topology. Founded in Taipei, Taiwan in 2000, TrendForce has extended its presence in China since 2004 with offices in Shenzhen and Beijing. For more details about TrendForce, please visit www.trendforce.com

Major research divisions:

DRAMeXchange focuses on memory, storage and the consumer electronics industry including PC DRAM, Mobile DRAM, Server DRAM, NAND Flash, SSD and smartphone.

WitsView offers comprehensive coverage of the display industry from upstream components, midstream panels/touch modules to downstream system integrators, brands and channels.

LEDinside covers all aspects of the LED supply chain from upstream equipment/materials, midstream chip/packaging to the downstream backlight and lighting market.

EnergyTrend specializes in green energy research, such as solar energy, lithium battery, energy storage systems and xEVs.

Topology studies structural trends of technology industries in the Greater China Region and beyond, focusing on semiconductors, photovoltaic technology, telecommunications, and IA.
