

Global OSAT Market Shows Signs of Gradual Recovery in 2H19, with Yearly Revenue Estimated to Decline Slightly, Says TrendForce

2019-11-20 [John Wang](#)

TrendForce, the decline in the global OSAT industry showed signs of a gradual halt in 3Q19, since the drop in memory prices began to slow down, and smartphone sales steadily recovered. The top ten OSAT providers posted a total revenue of US\$6 billion in 3Q19, a 10.1% growth YoY and 18.7% growth QoQ, indicating that the market as a whole is well on its way to recovery. Aside from KYEC and Chipbond's consistently stable performance, ASE, JCET, TFME, and TSHT are also once again showing a trend of yearly revenue upswing.

About TrendForce

TrendForce is a global provider of the latest development, insight, and analysis of the technology industry. Having served businesses for over a decade, the company has built up a strong base membership base of 435,000 subscribers. TrendForce has established a reputation as an organization that offers insightful and accurate analysis of the technology industry through five major research divisions: DRAMXchange, WitsView, LEDinside, EnergyTrend and Topology. Founded in Taipei, Taiwan in 2000, TrendForce has extended its presence in China since 2004 with offices in Shenzhen and Beijing. For more details about TrendForce, please visit www.trendforce.com

Major research divisions:

DRAMeXchange focuses on memory, storage and the consumer electronics industry including PC DRAM, Mobile DRAM, Server DRAM, NAND Flash, SSD and smartphone.

WitsView offers comprehensive coverage of the display industry from upstream components, midstream panels/touch modules to downstream system integrators, brands and channels.

LEDinside covers all aspects of the LED supply chain from upstream equipment/materials, midstream chip/packaging to the downstream backlight and lighting market.

EnergyTrend specializes in green energy research, such as solar energy, lithium battery, energy storage systems and xEVs.

Topology studies structural trends of technology industries in the Greater China Region and beyond, focusing on semiconductors, photovoltaic technology, telecommunications, and IA.
