

## 2019 Gaming Monitor Shipment Reaches 57% Growth YoY, While Curved Monitors Take 60% Market Share, Says TrendForce

2020-01-02 [Anita Wang](#)

- The global shipment of gaming monitors will exceed 11 million units in 2020.
- VA panels are the current mainstream, while fast-response liquid crystals will raise the technology penetration of IPS panels.

WitsView research division of [TrendForce](#), the 2019 shipment of gaming monitors (defined by WitsView as monitors with frame rate over 100Hz) is estimated at up to 8.5 million units, a 57% growth YoY, compared to 2018 figures. With the diversification of panel types and monitor models from different brands, the growth momentum of this industry is expected to continue well into the next few years, with projected shipment of 11-12 million units in 2020.

### About TrendForce

TrendForce is a global provider of the latest development, insight, and analysis of the technology industry. Having served businesses for over a decade, the company has built up a strong base membership base of 435,000 subscribers. TrendForce has established a reputation as an organization that offers insightful and accurate analysis of the technology industry through five major research divisions: DRAMXchange, WitsView, LEDinside, EnergyTrend and Topology. Founded in Taipei, Taiwan in 2000, TrendForce has extended its presence in China since 2004 with offices in Shenzhen and Beijing. For more details about TrendForce, please visit [www.trendforce.com](http://www.trendforce.com)

#### Major research divisions:

**DRAMeXchange** focuses on memory, storage and the consumer electronics industry including PC DRAM, Mobile DRAM, Server DRAM, NAND Flash, SSD and smartphone.

**WitsView** offers comprehensive coverage of the display industry from upstream components, midstream panels/touch modules to downstream system integrators, brands and channels.

**LEDinside** covers all aspects of the LED supply chain from upstream equipment/materials, midstream chip/packaging to the downstream backlight and lighting market.

**EnergyTrend** specializes in green energy research, such as solar energy, lithium battery, energy storage systems and xEVs.

**Topology** studies structural trends of technology industries in the Greater China Region and beyond, focusing on semiconductors, photovoltaic technology, telecommunications, and IA.
