

## TrendForce Releases the 2019 Rankings of Taiwanese PV Module and Inverter Manufacturers

2020-02-12 [Sharon Chen](#)

- TSEC doubled its shipment in 2019 and dominated the module market with URE.
- In the inverter market, Delta held a 35% share and ranked first in terms of shipment for three consecutive years.
- The future supply of PV modules and inverters may be affected by the coronavirus outbreak, as China supplies the majority of raw materials.

EnergyTrend research division of [TrendForce](#) finds that Taiwan's newly installed capacity reached historical highs in 2019, with over 36% growth YoY compared to each quarter in 2018. This growth momentum is expected to continue in the next few years as large-scale ground-mounted PV projects are underway.

The coronavirus outbreak is expected to disrupt the supply of modules and inverters

### About TrendForce

TrendForce is a global provider of the latest development, insight, and analysis of the technology industry. Having served businesses for over a decade, the company has built up a strong base membership base of 435,000 subscribers. TrendForce has established a reputation as an organization that offers insightful and accurate analysis of the technology industry through five major research divisions: DRAMXchange, WitsView, LEDinside, EnergyTrend and Topology. Founded in Taipei, Taiwan in 2000, TrendForce has extended its presence in China since 2004 with offices in Shenzhen and Beijing. For more details about TrendForce, please visit [www.trendforce.com](http://www.trendforce.com)

#### Major research divisions:

**DRAMeXchange** focuses on memory, storage and the consumer electronics industry including PC DRAM, Mobile DRAM, Server DRAM, NAND Flash, SSD and smartphone.

**WitsView** offers comprehensive coverage of the display industry from upstream components, midstream panels/touch modules to downstream system integrators, brands and channels.

**LEDinside** covers all aspects of the LED supply chain from upstream equipment/materials, midstream chip/packaging to the downstream backlight and lighting market.

**EnergyTrend** specializes in green energy research, such as solar energy, lithium battery, energy storage systems and xEVs.

**Topology** studies structural trends of technology industries in the Greater China Region and beyond, focusing on semiconductors, photovoltaic technology, telecommunications, and IA.
