

Despite Rising 2Q20 Server DRAM and Enterprise SSD Prices, Expanding COVID-19 Outbreak Means 2H20 Supply and Demand Situation Remains Important Point of Consideration, Says TrendForce

2020-03-10 [TrendForce](#)

DRAMeXchange research division of [TrendForce](#) has now raised its previous forecast of 2Q20 server DRAM price trend from a 15% increase QoQ up to a 20% increase QoQ. The same uptrend is reflected in 2Q20 enterprise SSD prices as well, with the previous forecast of a 5-10% increase QoQ now corrected up to a 10-15% increase QoQ. In addition, memory suppliers are now facing low inventory levels, subsequently prompting them to maintain the 2Q20 price upsurge.

The corresponding surge in enterprise SSD demand is expected to boost 2Q20 prices by up to 15%

About TrendForce

TrendForce is a global provider of the latest development, insight, and analysis of the technology industry. Having served businesses for over a decade, the company has built up a strong base membership base of 435,000 subscribers. TrendForce has established a reputation as an organization that offers insightful and accurate analysis of the technology industry through five major research divisions: DRAMXchange, WitsView, LEDinside, EnergyTrend and Topology. Founded in Taipei, Taiwan in 2000, TrendForce has extended its presence in China since 2004 with offices in Shenzhen and Beijing. For more details about TrendForce, please visit www.trendforce.com

Major research divisions:

DRAMeXchange focuses on memory, storage and the consumer electronics industry including PC DRAM, Mobile DRAM, Server DRAM, NAND Flash, SSD and smartphone.

WitsView offers comprehensive coverage of the display industry from upstream components, midstream panels/touch modules to downstream system integrators, brands and channels.

LEDinside covers all aspects of the LED supply chain from upstream equipment/materials, midstream chip/packaging to the downstream backlight and lighting market.

EnergyTrend specializes in green energy research, such as solar energy, lithium battery, energy storage systems and xEVs.

Topology studies structural trends of technology industries in the Greater China Region and beyond, focusing on semiconductors, photovoltaic technology, telecommunications, and IA.
