

Under COVID-19 Pandemic's Influence, February LCD TV Panel Shipment Declined by 10.2% Compared to Previous Shipment Target, Says TrendForce

2020-03-24 [TrendForce](#)

WitsView research division of [TrendForce](#), despite the impact from the COVID-19 pandemic, February TV panel shipments were propped up by rising panel ASPs and panel manufacturers' existing stock. Monthly TV panel shipment decreased by 3.5% MoM in February, reaching 20.073 million units. This figure is a 10.2% decline from the shipment target set in 2019 but remains higher than previously projected decline of 18%.

As TV panel shipment ranking saw a major reshuffle, CSOT led the pack for the first time.

TV panel shipment in 1Q20 is projected to be 5.6% lower than shipment target set in 2019.

About TrendForce

TrendForce is a global provider of the latest development, insight, and analysis of the technology industry. Having served businesses for over a decade, the company has built up a strong base membership base of 435,000 subscribers. TrendForce has established a reputation as an organization that offers insightful and accurate analysis of the technology industry through five major research divisions: DRAMXchange, WitsView, LEDinside, EnergyTrend and Topology. Founded in Taipei, Taiwan in 2000, TrendForce has extended its presence in China since 2004 with offices in Shenzhen and Beijing. For more details about TrendForce, please visit www.trendforce.com

Major research divisions:

DRAMeXchange focuses on memory, storage and the consumer electronics industry including PC DRAM, Mobile DRAM, Server DRAM, NAND Flash, SSD and smartphone.

WitsView offers comprehensive coverage of the display industry from upstream components, midstream panels/touch modules to downstream system integrators, brands and channels.

LEDinside covers all aspects of the LED supply chain from upstream equipment/materials, midstream chip/packaging to the downstream backlight and lighting market.

EnergyTrend specializes in green energy research, such as solar energy, lithium battery, energy storage systems and xEVs.

Topology studies structural trends of technology industries in the Greater China Region and beyond, focusing on semiconductors, photovoltaic technology, telecommunications, and IA.
